

5th MetMeSS

Symposium on

“Meteoroid, Meteor, Meteorites: Messenger from Space”

Dates: January 27th and 28th, 2026

MetMeSS is a national symposium dedicated to advancing meteorite and planetary science research in India. Hosted for the first time by IIST in collaboration with PRL, the event brings together scientists, researchers, and students to exchange fresh insights on extraterrestrial materials and planetary processes. By fostering collaboration across meteoritics, planetary geology, cosmochemistry, and astrobiology, MetMeSS aims to strengthen our collective understanding of the Solar System.
