PULSAR TIMING ARRAYS: DETECTING GRAVITATIONAL WAVES USING CELESTIAL CLOCKS

Speaker:

Dr. Abhimanyu Shushobhanan

IISER-Thiruvananthapuram

Venue:
C305, Science Block

Time:
3:00 PM to 4:00 PM
March 24, 2026

Come learn about how rapidly spinning neutron stars acting as incredibly precise celestial clocks can be used for detecting gravitational waves.
