About IIST

Indian Institute of Space Science and Technology (IIST), Valiamala, Thiruvananthapuram is a Deemed-to-be University established by Department of Space, Govt of India in 2007. It offers various undergraduate, postgraduate, doctoral and post-doctoral programmes in the areas of space engineering, space technology, space science, space applications and basic sciences of relevance to space and Humanities. The institute always upholds its firm faith in offering quality education and maintaining its significance in moulding future generation with a commitment to society and the nation, and it always encourages its faculty members to introduce innovative and state of the art techniques to hone their teaching-learning skills.

*Last Date of online Registration-2nd July 2021
Intimation of Confirmation-5th July 2021*

About the Department of Humanities

Department of Humanities, IIST plays a unique role within the vision of the institute by ensuring that the training of engineers for space research takes place in a holistic manner and by further strengthening the space and society linkages. The Department encompassing the disciplines of Economics, English, Management, and Sociology offers core and elective courses as part of the B.Tech. curriculum and has its own doctoral programme. With the same commitment to rigorous analysis that extends across all disciplines at IIST, the Department of Humanities also tries to disseminate and deepen knowledge and understanding of society, from social, economic, and managerial behaviour to languages, communication and literature.

Objectives of the FDP

- ✓ To enhance the psychosocial skills of the people especially when they are dealing with their colleagues, subordinates and superior authorities.
- ✓ To enhance emotional competency and emotional intelligence at the workplace so that they can maintain good relationships.
- ✓ To improve confidence which will definitely help each individual in increasing their output
- ✓ To improve interpersonal skills and thereby creating a better work atmosphere which is more cordial and encouraging
- ✓ To provide a better understanding regarding the purpose and effectiveness of social connectedness

Expected outcome of the FDP

A programme on social connectedness and life skills management will definitely help in improving the work culture and social wellbeing of the stakeholders. Some of the expected outcomes include socially active and vibrant people, and building healthy and constructive relationships and bonding among people, so that the people will be willing to share and they will be considerate. Especially in workplaces, social connectedness will help people to come out of hierarchical distinctions and they will work for the common good. When everyone thinks about everyone else, our society will be less selfish and more holistic. Thus the psychosocial wellbeing will help in encouraging people to come out of their stigma. It is going to help both the organisers, participants and the experts as well.

Number and level of Participants

For this five-day Faculty development programme, maximum of 200 participants including faculty members from AICTE approved institutions, research scholars, PG Scholars, and Industry Personnel are expected.

Registration Process

For this online FDP, there is no registration fee. As the number of registration is limited participants are advised to register at the earliest. Confirmation of participation will be on first come first serve basis.

Registration will be done only through the webpage <http://www.aicte-india.org/atal>
